

Premium Infotainment & Sound Systems
Exclusively Designed for Off-Road Vehicles

Premium 9" Infotainment System suitable for LandCruiser 200 Series

Be thrilled from the second you start your car. Alpine's all-new 9-inch exclusive design infotainment system lets you experience a whole new level of entertainment with a stunning 9" WXGA high-definition display and playback of Hi-Res music up to 192kHz / 24Bit via Tidal wireless streaming or USB media. Seamlessly integrated into the dashboard is the high-quality piano black fascia and Alpine's signature centre glass keys that provide a luxurious feel, uplifting the interior aesthetic. Equipped with wireless Apple CarPlay and wired Android Auto (via USB), your favourite entertainment and smartphone apps are available from the dashboard. Get directions with maps and navigation apps, send and receive messages, make calls and listen to music all without a cable in sight.

Features: 9-Inch WXGA Display (1280 x 720p) • 4 x 50 Watts Class-D High Power Amplifier • AM/FM RDS TUNER / DAB+ Digital Radio • Wireless Apple CarPlay and Wired Android Auto • Built-in GPS/GLONASS Circuit • iDatalink Maestro Ready • Wi-Fi • Hi-Res Audio Certified with Hi-Res Audio Wireless LDAC • TIDAL Built-in for Hi-Res Audio Music Streaming • Music Playback FLAC, MP3, WMA, AAC, WAV, APE • Video Playback MP4, MOV, FLV, MKV • Bluetooth Phone and Music Streaming • 1 x A/V AUX Input • 1 x HDMI Input • 1 x HDMI Output • 2 x USB Ports • Wireless Remote Control Ready • Front and Rear Camera Input • Live Contrast and Auto Dimmer • 10-Equaliser Presets and 13-Channel Parametric EQ • 6-Channel Digital Time Correction

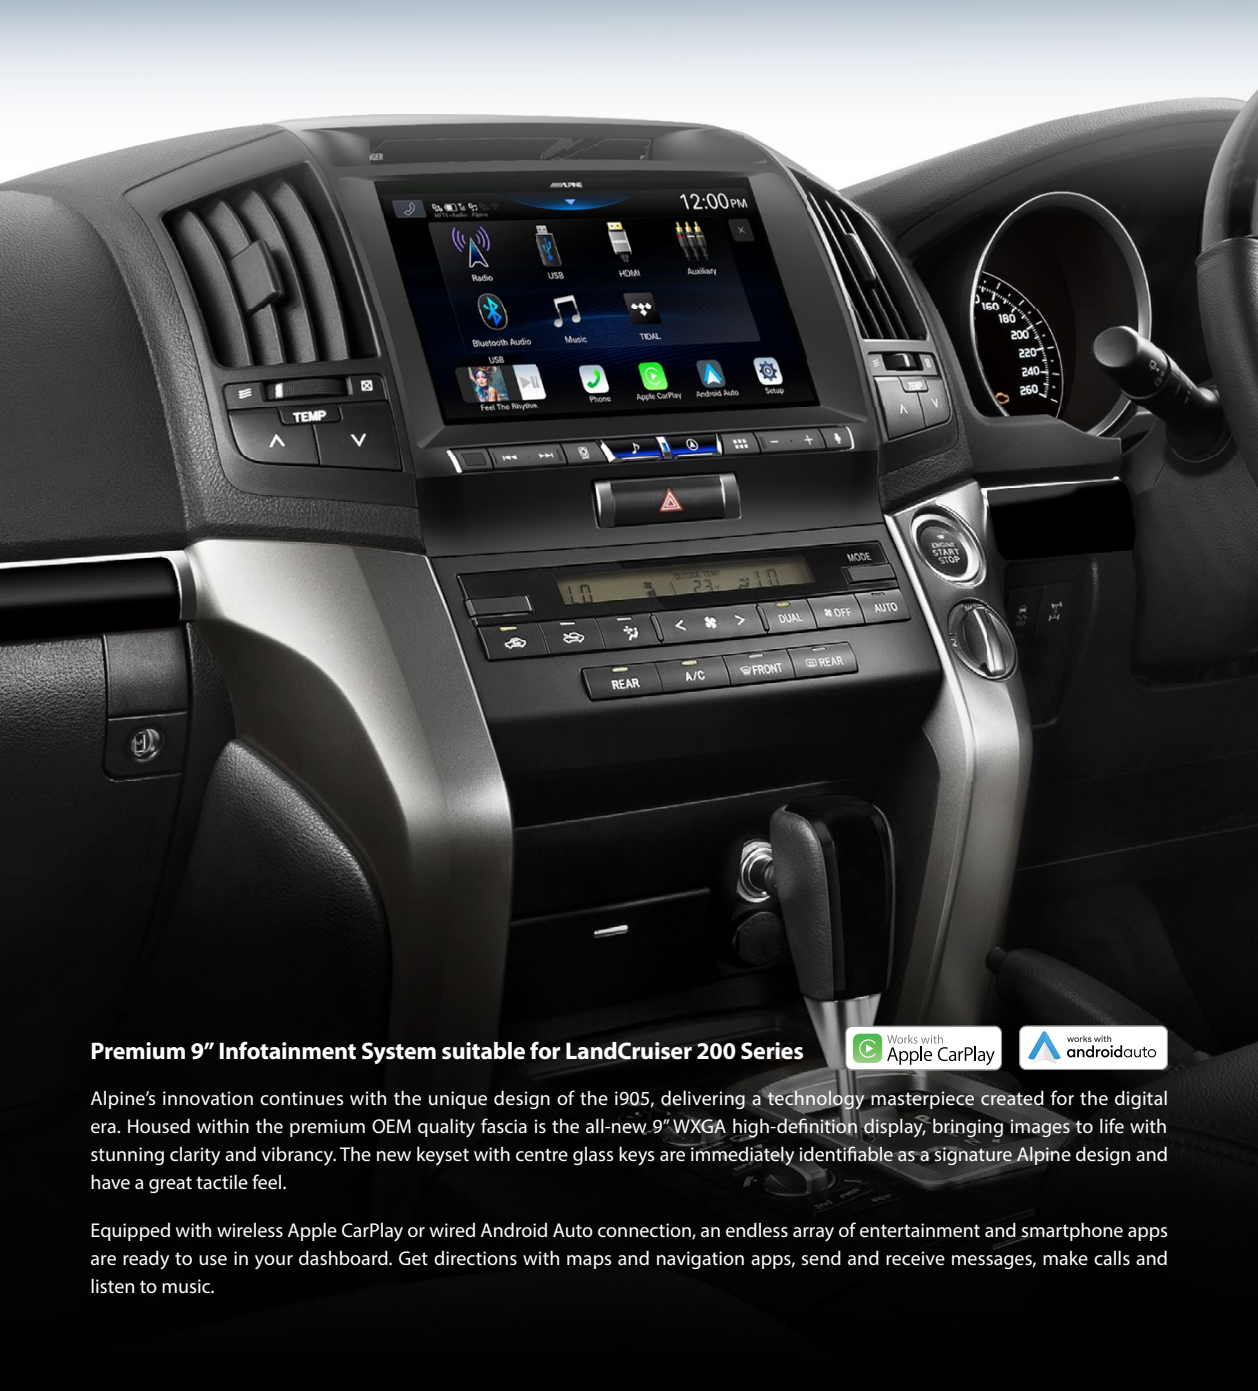

Smartphone Navigation

Through the incredible Alpine WXGA high-definition display you have the access and guidance of pin-point navigation provided through Apple CarPlay and Android Auto. With a wide array of navigation platforms and apps available, for example Apple Maps, Google Maps, Waze and Sygic you can search and get to your destination with ease.

Wireless Apple CarPlay and Wired Android Auto

No wires, no fuss, just get in and drive with your iPhone wirelessly connected to use Apple CarPlay. Listen to your favourite music apps, make and receive calls or messages, and use maps via the display or voice control, or if you need to charge-up then plug-in your iPhone via USB. Android Auto lets you bring the ever-expanding apps to the dash of your car, and also make calls, send and receive messages, play music apps or set a destination via Google Maps or Waze.

Premium 9" Infotainment System suitable for LandCruiser 200 Series

Alpine's innovation continues with the unique design of the i905, delivering a technology masterpiece created for the digital era. Housed within the premium OEM quality fascia is the all-new 9" WXGA high-definition display, bringing images to life with stunning clarity and vibrancy. The new keyset with centre glass keys are immediately identifiable as a signature Alpine design and have a great tactile feel.

Equipped with wireless Apple CarPlay or wired Android Auto connection, an endless array of entertainment and smartphone apps are ready to use in your dashboard. Get directions with maps and navigation apps, send and receive messages, make calls and listen to music.

Premium 9” Infotainment System suitable for LandCruiser 70 Series

Alpine’s i905 for LandCruiser 70 Series has been engineered with cutting-edge design to elevate the in-cabin aesthetic. The high-definition WXGA 9” display acts as a stunning new centrepiece to the interior, integrating seamlessly whilst also showcasing design cues in-line with the 70 Series’ rugged nature. Equipped with wireless Apple CarPlay and wired Android Auto (via USB), an endless array of entertainment and smartphone apps are available to use in your dashboard. Get directions with maps and navigation apps, send and receive messages, make calls and listen to music all without a cable in sight with Apple CarPlay or with Android Auto USB connection.

A world-first innovation, the i905 is equipped with a powerful built-in Class-D amplifier to deliver the richness and dynamics of your music. Moreover, with Alpine’s extensive sound tuning capabilities, you can apply simple one touch audio adjustments to make your cabin space sound brilliant, or for pro-level users and enthusiasts a host of advanced tuning functions are available. Discover unmatched audio quality and design in your LandCruiser for the ultimate off-road lifestyle.

Premium Design Sound for Dual-Cab LandCruiser 70 Series

Turn up the bass in your 70 Series — the next Generation R-Series are born to be played loud with the all-new R-Series ‘direct fit’ premium aftermarket speaker upgrade. Alpine’s premium sound solution has been engineered to provide rock solid durability and good looks, with amazing sound and clarity. Equipped with Alpine’s huge R2-Series 6x9” speakers front and rear, experience punchy, concise bass as well as uncompromised sound performance and richness possible through Hi-Res Audio certification.

Comfort and Convenience have not been forgotten. Up front, the LC70-R269P houses drink compartments capable of holding a 375ml can, and even a 1.25 litre bottle, each pod also includes a large pocket to house maps, tablets, or books. In the rear, drinks up to 600ml can also be carried. For technological needs, there are USB charge ports both front and rear allowing charge of up to 8 devices at once. Finally, Built-in puddle lights also help light the way, assisting vehicle exits in unfamiliar situations.

The updated LC70-R269P is the pinnacle of Hi-Fi sound performance, design and practicality. A must have accessory for the ultimate off-road lifestyle.

Perfect Integration

Alpine’s premium sound for LC70 Series is the complete audiophile and lifestyle solution. The huge 6x9-inch speakers front and rear not only sound great, but also provide clean and concise bass performance.

Light Up The Outdoors

Never miss a step again and light-up the ground in style. Alpine’s puddle light is designed for all your outdoor adventures, illuminating the ground underneath and drawing attention at night.

Carry Your Life With You

Alpine’s exclusive LC70 Series pockets accommodate for both large bottles and small cans, as well as maps, tablets and almost anything else that will fit. Plus, there is a USB charge point at each door.

Dual USB Fast Charging

The on-board USB fast charge outputs sit discreetly within the speaker pod design, allowing up to 8 devices (such as a tablet or smartphone) to charge at any one time.

Premium 9" Infotainment System suitable for LandCruiser 70 Series 2024 Onwards

Alpine's 1905 for LandCruiser 70 Series has been engineered with cutting-edge design to elevate the in-cabin aesthetic. The high-definition WXGA 9" display acts as a stunning new centrepiece to the interior, integrating seamlessly whilst also showcasing design cues in-line with the 70 Series' rugged nature. Equipped with wireless Apple CarPlay and wired Android Auto (via USB), an endless array of entertainment and smartphone apps are available to use in your dashboard. Get directions with maps and navigation apps, send and receive messages, make calls and listen to music all without a cable in sight with Apple CarPlay or with Android Auto USB connection.

A world-first innovation, the 1905 is equipped with a powerful built-in Class-D amplifier to deliver the richness and dynamics of your music. Moreover, with Alpine's extensive sound tuning capabilities, you can apply simple one touch audio adjustments to make your cabin space sound brilliant, or for pro-level users and enthusiasts a host of advanced tuning functions are available. Discover unmatched audio quality and design in your LandCruiser for the ultimate off-road lifestyle.

Premium Design Sound for Single-Cab LandCruiser 70 Series

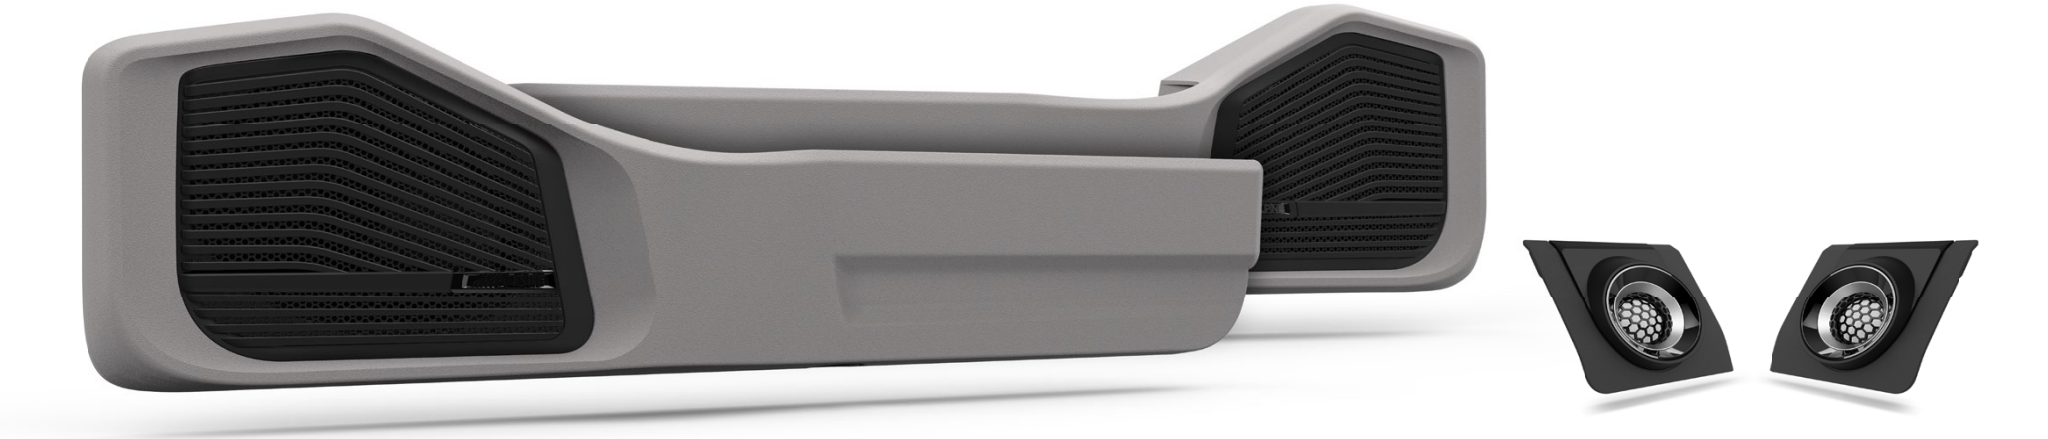

Unleash the bass in your Troop Carrier or Single-Cab 70 Series — the next-generation R-Series is built to be played loud. This all-new direct-fit premium speaker upgrade combines Alpine's legendary audio performance with rugged durability, giving your ride both killer looks and stunning sound clarity. Powered by Alpine's massive R2-Series 6x9" speakers, you'll feel deep, punchy bass and hear every detail thanks to uncompromised Hi-Res Audio certification. It's the kind of sound that turns every drive into a pure audio nirvana experience.

But this upgrade isn't just about audio. The LC70-269SC-R is designed for comfort and convenience, with drink holders that fit large bottles or 375ml cans, plus spacious pockets for maps, tablets, or books. Integrated USB charge ports in each door pod power up to four devices at once, while built-in puddle lights illuminate your surroundings — adding style and safety when stepping out into unfamiliar terrain.

Precision-engineered from injection-moulded, OEM-grade PC/ABS polymers, these components are made to last, shrugging off years of use and whatever the outdoors throws at them. The sleek yet tough styling enhances your interior while paying homage to the vehicle's rugged heritage.

The updated LC70-269SC-R isn't just a speaker upgrade — it's the ultimate fusion of Hi-Fi sound, smart design, and real-world practicality. A must-have for the modern off-road lifestyle.

Perfect Integration

Alpine's premium sound for LC70 Series is the complete audiophile and lifestyle solution. The huge 6x9-inch speakers not only sound great, but also provide clean and concise bass performance.

Light Up The Outdoors

Never miss a step again and light-up the ground in style. Alpine's puddle light is designed for all your outdoor adventures, illuminating the ground underneath and drawing attention at night.

Carry Your Life With You

Alpine's exclusive LC70 Series pockets accommodate for both large bottles and small cans, as well as maps, tablets and almost anything else that will fit. Plus, there is a USB charge point at each door.

Dual USB Fast Charging

The on-board USB fast charge outputs sit discreetly within the speaker pod design, allowing up to 4 devices (such as a tablet or smartphone) to charge at any one time.

Premium 11" or 9" Infotainment System suitable for Hilux

Alpine's ethos of excellence continues in the latest generation of 11" and 9" premium infotainment system suitable for Toyota Hilux. Alpine Halo Audio Visual Receivers boast industry-leading features, such as the stunning WXGA display, Hi-Res Audio specifications and advanced wireless connectivity. The ultra-high-quality WXGA display utilises 2.7 million pixels in conjunction with the revolutionary laminated display panel, image performance is of the highest standard, reproducing life-like razor sharp images with remarkable contrast and colour vibrancy. High-definition video from USB or HDMI sources has never looked so good. Wireless Apple CarPlay and Android Auto, brings your smartphone and a wide-range of apps to the dashboard. Get directions, make calls, send and receive messages and listen to high-resolution streaming music all without a cable in sight.

The iLX-F509A brings the concert to the cockpit with Hi-Res Audio and LDAC wireless technology, letting you play high-resolution music via USB, or streaming via smartphone music services and apps revealing the original recording the way the artist intended.

iDatalink Maestro Integration

Alpine head units with iDatalink Maestro capability enables communication to the vehicle CAN system to retain factory head unit features including reverse camera with dynamic guides, climate control, vehicle info and settings, plus adds other new features such as gauges.

Wireless Apple CarPlay and Android Auto

No wires, no fuss, just get in and drive. Listen to your favourite music apps, make and receive calls or messages, and use maps via the display or voice control, or if you need to charge-up then connect via USB. Android Auto and Apple CarPlay let you bring the ever-expanding apps library to the dash of your car!

Premium 11" Infotainment System suitable for Dodge Ram

Whether heading off for the weekend or to the worksite be entertained like never before with Alpine's massive 11" Halo Infotainment system. The state-of-the-art system blends sophisticated design with advanced technology. Indulge in the ultimate audio experience on every drive with Hi-Res Audio and LDAC technology, enabling high-resolution music streaming from your smartphone. The high-definition WXGA display transforms your interior, bringing HDMI sources and USB video in vivid detail. Advanced wireless connectivity ensures seamless integration with Apple CarPlay and Android Auto for safe and convenient access to your phone, messaging, navigation and music apps.

Lighting & Accessory Control

Access and command all your off-road lighting and accessories through your Alpine head unit. The KAC-001 accessory controller provides inputs for up to eight accessories including winches, lightbars, spotlights, or almost any other accessory you need.

Simplify and declutter your vehicle's dashboard by controlling accessories like winches, spotlights, light bars, or even air suspension directly from your Alpine touchscreen!

KAC-001 Accessory Control Module

The KAC-001 Accessory Control Module becomes the central hub for managing and operating a variety of 12V electrical accessories. With eight individual outputs, you can control relay-connected accessories configured as Pulsed, Latched, or Momentary Outputs. Additionally, you can select graphical icons for each accessory for easy identification on your screen.

Extensive Control & Spatial Efficiency

No more messy wiring or cluttered switch boards, Alpine's KAC-001 can fit in the palm of your hand, and will hold all of your device inputs at once. The KAC-001 allows you to gain extensive control of accessories that a traditional switch cannot provide.

Customisable Switch Responses

Momentary mode keeps active while you're holding the button. Latch mode toggles your device on/ off and Pulse mode allows a set duration.

Access from the Home Screen

Access the control module menu with ease from the home screen, allowing for seamless integration and effortless operation.

iDatalink Maestro Integration

iDatalink Maestro is the most advanced vehicle integration solution available on the market, seamlessly retaining key safety features such as parking sensors, multi-view and 360 degree cameras, climate controls and vehicle settings all while providing extra features beyond what the OEM system offers, such as real-time performance gauges and configurable steering controls. All accessible from the comfort and convenience of your Alpine head unit.

iDatalink Maestro Interface Modules

Maestro iDatalink's innovative technology is developed by Automotive Data Solutions (ADS) allowing seamless integration of aftermarket car audio and electronics when replacing factory-installed systems.

The iDatalink protocol essentially acts as a communication interface between the Alpine head unit and the vehicle's CAN bus system with access to its on-board control modules.

Climate Control

Quickly and easily control climate functions such as airflow direction, air temperature, fan speed, as well as heated and cooled seating via the intuitive interface. Controls vary based on the make and model.

Vehicle Status Information

View and monitor your vehicles health by being notified of potential warnings such as irregular battery voltage, un-latched seatbelts, low tyre pressure, open doors and more. Information varies based on make and model.

Vehicle Settings

Retain the vehicle settings of the original head unit to select safety, comfort and convenience options. Vehicle settings are easily accessed via a neatly organised menu. Functions available depend on make and model.

Advanced Camera Integration

Retain visual safety aids such as 360 degree and multi-view cameras with dynamic guide lines. Park distance alerts can also be retained to ensure safer maneuvering. Camera integration depends on factory options.

DVR-DM1000KO-IC

10" Display Mirror with Front and Rear View Recording

Perfect for 4x4 wagons, SUV's and vans fitted out with camper conversions, large spare wheel setups or even just a boot load of camping gear can completely block the view out of the rear windows, making a traditional mirror unusable. The DVR-DM1000KO-IC Digital Mirror gives you a clear, real-time view of what's behind your vehicle, and continuously records from both front and rear inside vehicle cameras.

Ultra-Wide Lens Angle

Both cameras feature an ultra-wide field of view, Assisting to reduce blind spots and keep the image free from distortion. Easily adjust the field of view by dragging your finger across the display.

High Dynamic Range for Night Vision

High Dynamic Range (HDR) vision delivers accurate exposure and vibrant images, even in low-light conditions. It ensures visual clarity either facing bright headlights or navigating dark roads.

See What's Behind You In High Resolution

Featuring an OEM grade 10" Full Lamination 1280 x 320p display and two high resolution cameras, the DVR-DM1000KO-IC is able to pick-up every detail to ensure a perfect view of your surroundings.

Constant Video Capture

The DVR-DM1000KO-IC continuously records and saves video to its on-board 32Gb micro-SD memory card, giving you clear footage that can be reviewed and retrieved in the event of an accident.

Features: • 10-Inch Full Lamination Display (1280 x 320p) • 2 x Full High-Definition 1920x1080p Inside Vehicle Cameras • Front and Rear Dash Cam Functionality • STARVIS™ Technology for Clear Night Vision • Auto-Dimming Functionality • On-Board Expandable 32Gb Micro SD Card Storage • Constant and Manual Recording Modes • Impact Detection Based Recording • Parked Vehicle Recording Mode • Compatible with Universal and Vehicle Specific Mounting Arms • Includes GPS Antenna

DME-R1200

12" Display Mirror with Rear View Camera

Alpine's DME-R1200 displays a crystal clear, real-time view behind your vehicle at all times. This is perfect for vans or ute's fitted with canopies, toolboxes, or other rear-load setups that obstruct the vision out of the rear window. Furthermore, you can turn off the display at a touch of the button at any time and resumes as a regular reflective mirror.

The included All-Weather HD Camera can be mounted externally and captures a wide field of view, giving maximum situational awareness on or off the road.

140-Degree Lens Angle

The included all-weather camera uses a 140-degree wide-angle lens, reducing blind spots and keeping the image free from distortion. Adjust the field of view by dragging your finger across the display.

High Dynamic Range for Night Vision

High Dynamic Range ensures an accurate exposure and image vibrancy even at night. This allows you to have complete confidence in the displayed image despite bright headlights and dark roads.

See What's Behind You In Full HD

With a full lamination 12" High Definition 1920 x 440p screen, the DME-R1200 brings every detail of the road behind into your field of view. Drive with confidence knowing your surroundings.

Traditional Mirror Functionality

Press the power button on the front of the mirror to turn the display off instantly, and reveal a reflective mirror surface that can be used as a regular rear view mirror to check the back seats.

Features: • 11.8-Inch Full Lamination Display (1920 x 440p) • Full High-Definition 1920x1080p All-Weather Camera • HDR and Anti-Glare Technology for Clear Night Vision • Auto-Dimming Functionality • Compatible with Alpine's Premium Universal and Vehicle Specific Mounting Solutions • 10m Cable Extension Ready with optional KWX-DM01

OPTIM™8 Hi-Res AUDIO

Ford Ranger OPTIM™8 System

• ILX-F511A • PFK-RN16 • RN16-R265 • PXE-C80-88 • RS-W10D2

Alpine's exclusive system for your Ford Ranger brings a cinematic 11" WXGA display to the dashboard with Apple CarPlay and Android Auto, HDMI and dual USB inputs, DAB+/AM/FM Tuner, LDAC and Tidal for wireless Hi-Res Audio streaming. Furthermore the OPTIM8 Sound Processor Amplifier redefines audio excellence, delivering an atmospheric 3D sound experience and packs some serious power to drive the entire sound system. Featuring Alpine's industry-first Auto-EQ technology, OPTIM8 analyses the acoustic environment of your vehicle and automatically adjusts the audio to perfection - plus, you can also tailor the audio response curve to your own listening preferences.
